PROFESSIONAL SUMMARY

Full Stack Developer with 4 years of experience building and maintaining scalable web applications using Java, Spring Boot, React.js, and RESTful APIs. Hands-on in developing secure and high-performing systems across both frontend and backend layers. Experienced in microservices, JWT authentication, and CI/CD pipelines. Skilled in Java-based backend development, API integration, and frontend architecture with React.js and TypeScript. Adept at Agile collaboration and currently enhancing expertise in Java and backend frameworks.

WORK EXPERIENCE

Full Stack Developer | ACCENTURE, Mumbai

Feb 2025 – 11 Jan 2026

- ❖ Developed and maintained microservice based Java backend modules for portfolio and investment features using Spring Boot, JPA, and REST APIs.
- ❖ Built responsive UI components using React.js, TypeScript, Styled Components, and integrated with backend APIs.
- ❖ Implemented JWT-based authentication, multilingual support (SE, FI, EN) via i18n, and secure data handling between UI and backend.
- ❖ Designed and consumed APIs for stock trading (buy/sell, deposit/withdraw) and built dashboards with Highcharts.
- ❖ Enhanced backend logic for transactions, validations, and audit logging using Java + SQL.
- ❖ Configured CI/CD pipelines using Jenkins, Maven, and Docker for automated build and deployments.
- ❖ Collaborated across Agile sprints, performing code reviews, unit testing (Jest, JUnit), and maintaining code quality with SonarQube.

Software Developer | TCS, Mumbai

Jan 2022 – Feb 2025

- ❖ Developed end-to-end modules in Java (Spring Boot) and React.js, connecting frontend and backend systems through REST APIs.
- ❖ Implemented backend CRUD services and integrated them with UI for leave management and e-commerce internal tools.
- ❖ Used Spring Data JPA for database operations (MySQL), Postman for API testing, and JWT for authentication.
- ❖ Contributed to performance optimization and accessibility enhancements across web platforms.
- ❖ Collaborated with cross-functional teams in Agile environments, delivering scalable full-stack features and reusable UI components.
